AEP Span Launches New TW-12 Architectural Wall Panel

West Sacramento, California – March 4, 2015 – AEP Span has launched TW-12, a new concealed fastener architectural metal wall panel which features a trapezoid shape with unique shadow lines.

TW-12 has a 12” net coverage offered in 24 gauge and 22 gauge. Combining the natural shadow lines from the shape of the panel along with a wide range of colors, prints, and textures provide the architectural community exceptional design possibilities.
